

3D Geometric Shapes

Tetrahedron (small)

Platonic Solid - 4 Faces

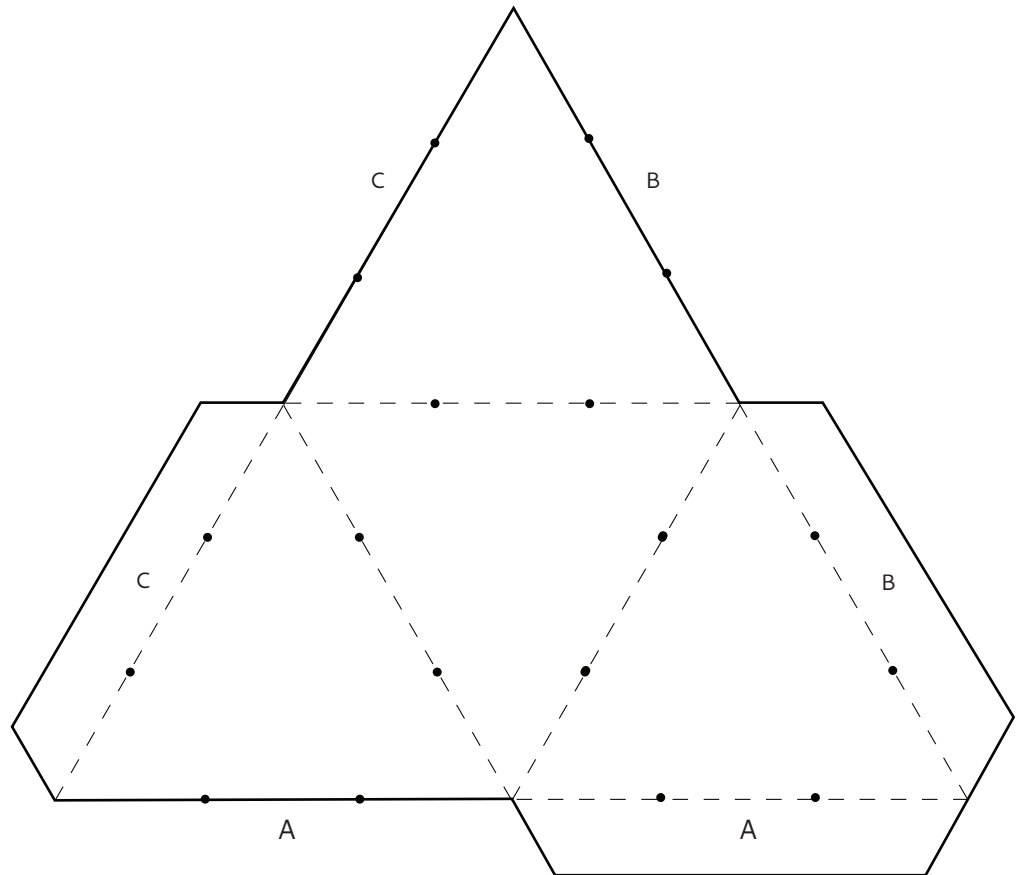

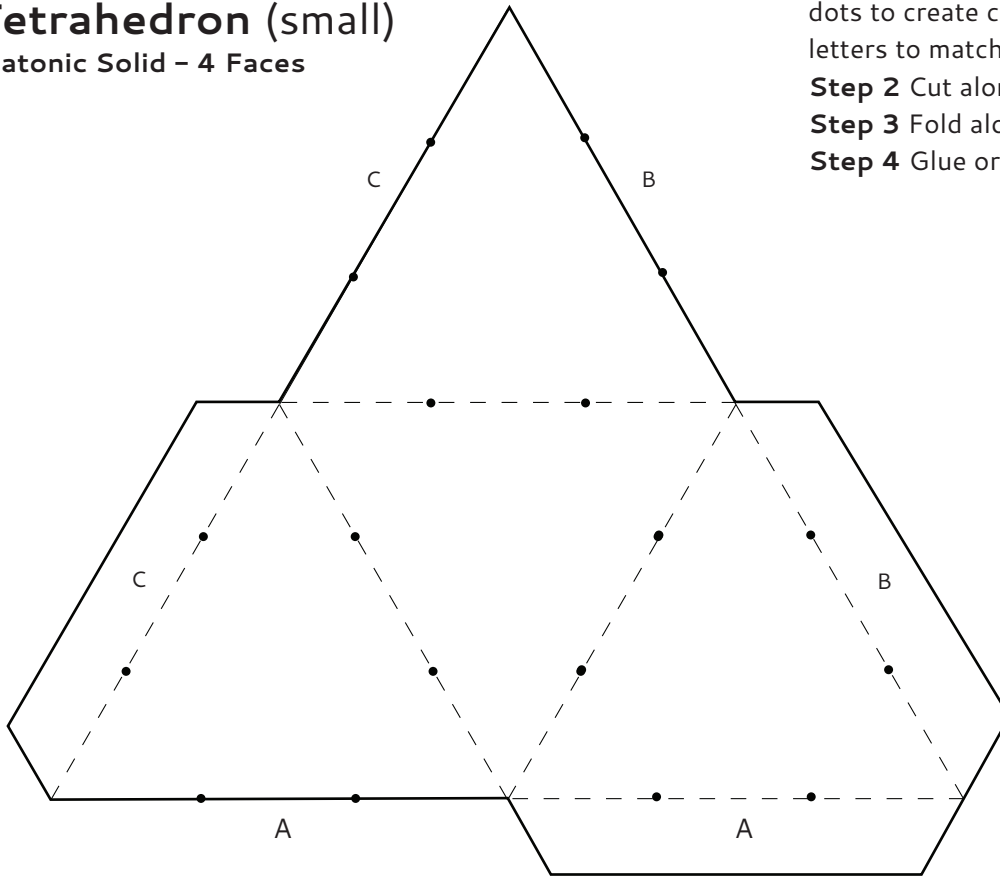

Instructions:

Step 1 Add designs to the template. Use the dots to create connecting patterns. Use the letters to match connecting edges/faces.

Step 2 Cut along thick black outer line.

Step 3 Fold along dashed lines.

Step 4 Glue or tape shape together using tabs.

3D Geometric Shapes

Tetrahedron (large)

Platonic Solid - 4 Faces

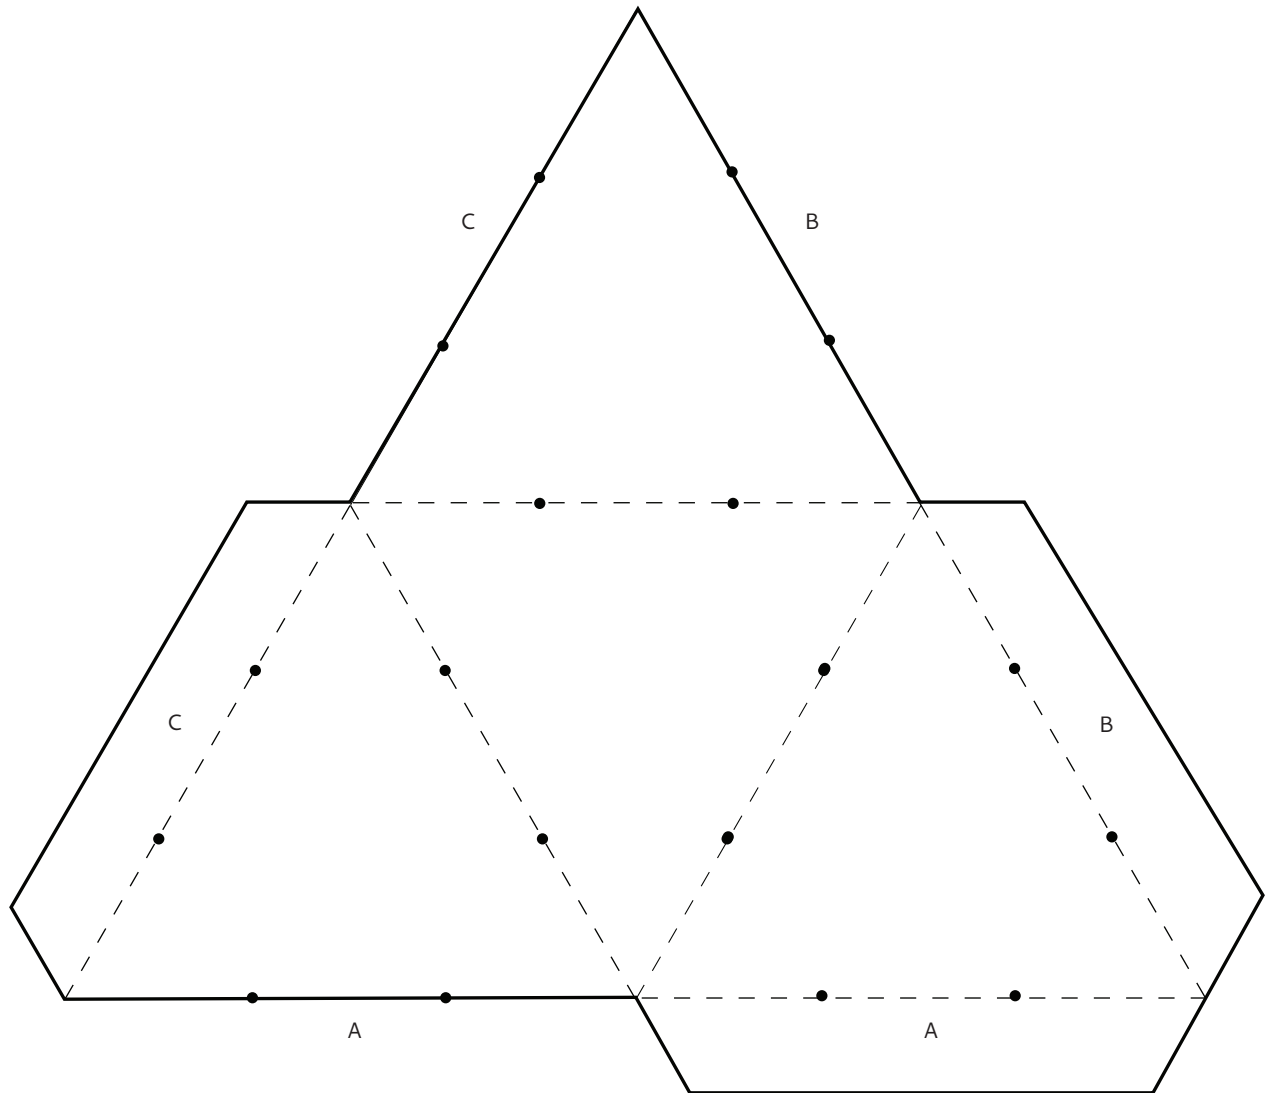

Instructions:

Step 1 Add designs to the template. Use the dots to create connecting patterns. Use the letters to match connecting edges/faces.

Step 2 Cut along thick black outer line.

Step 3 Fold along dashed lines.

Step 4 Glue or tape shape together using tabs.

3D Geometric Shapes

Cube

Platonic Solid – 6 Faces

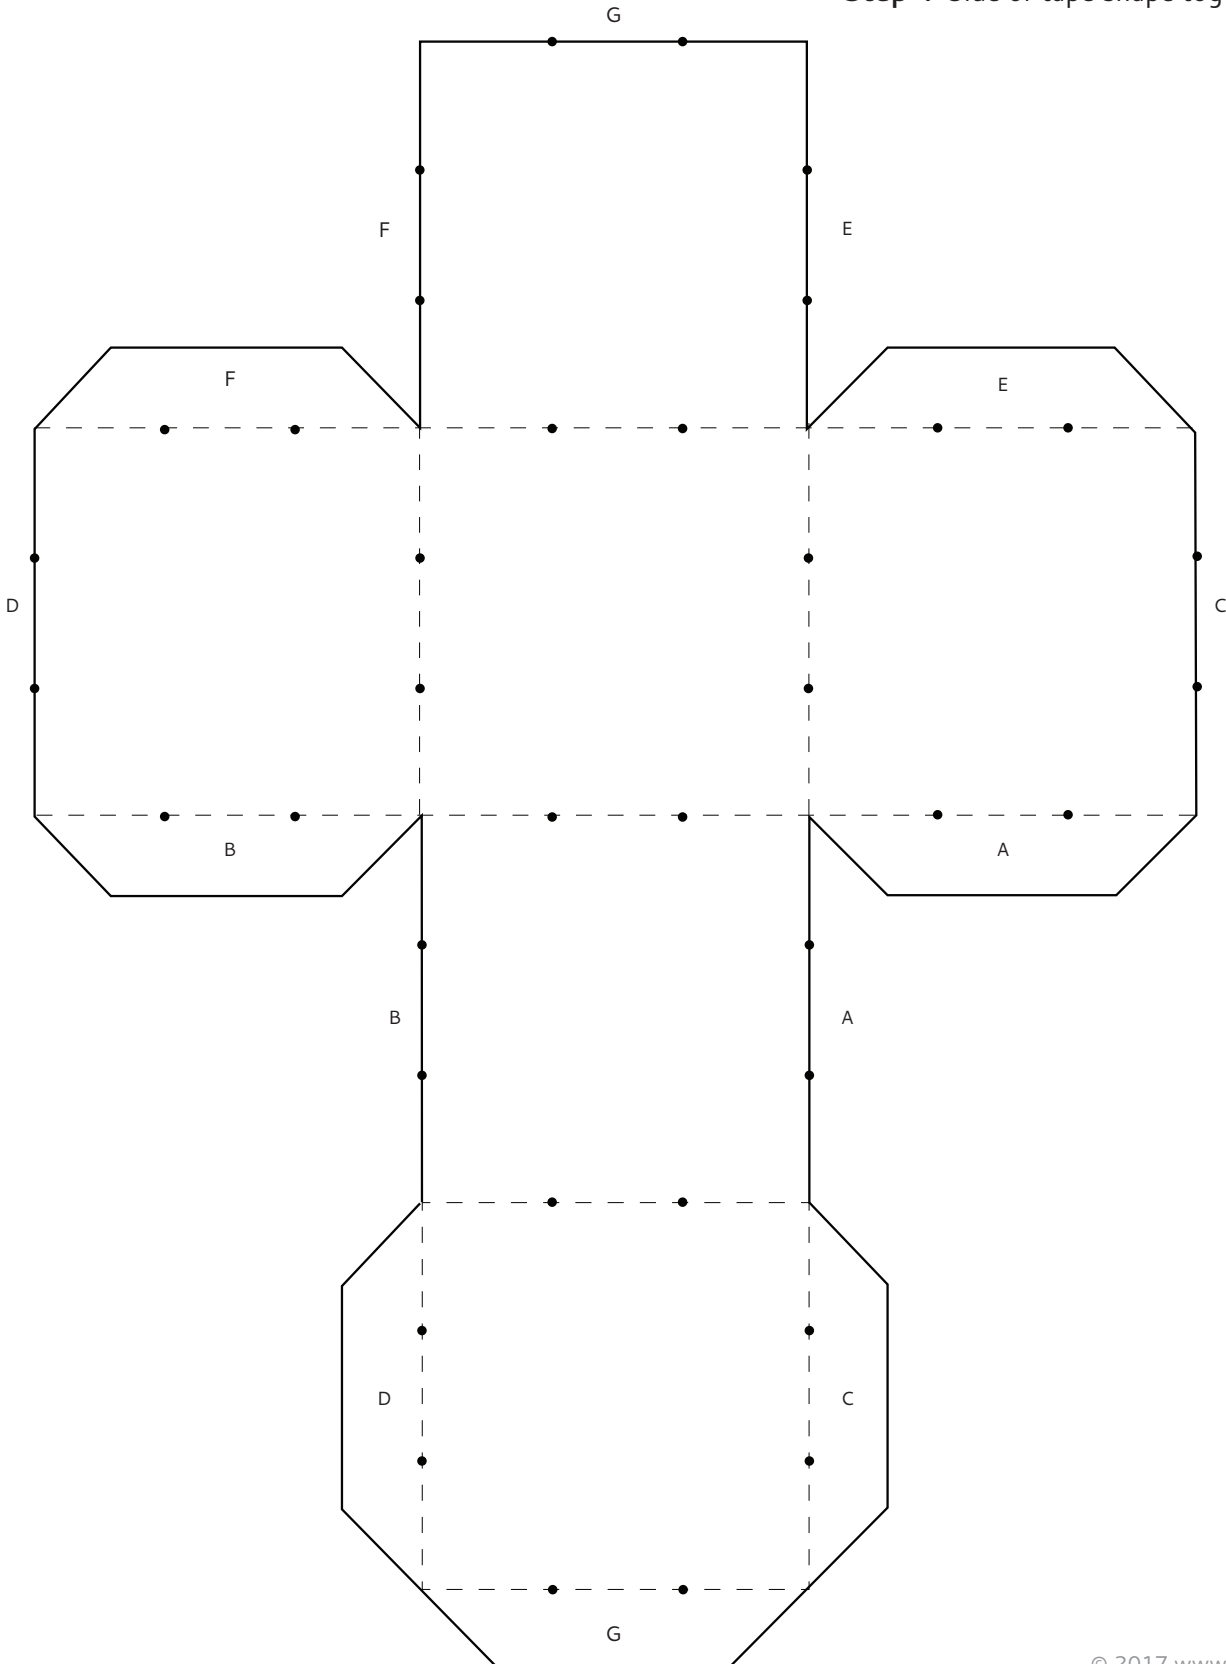

Instructions:

Step 1 Add designs to the template. Use the dots to create connecting patterns. Use the letters to match connecting edges/faces.

Step 2 Cut along thick black outer line.

Step 3 Fold along dashed lines.

Step 4 Glue or tape shape together using tabs.

3D Geometric Shapes

Octahedron

Platonic Solid - 8 Faces

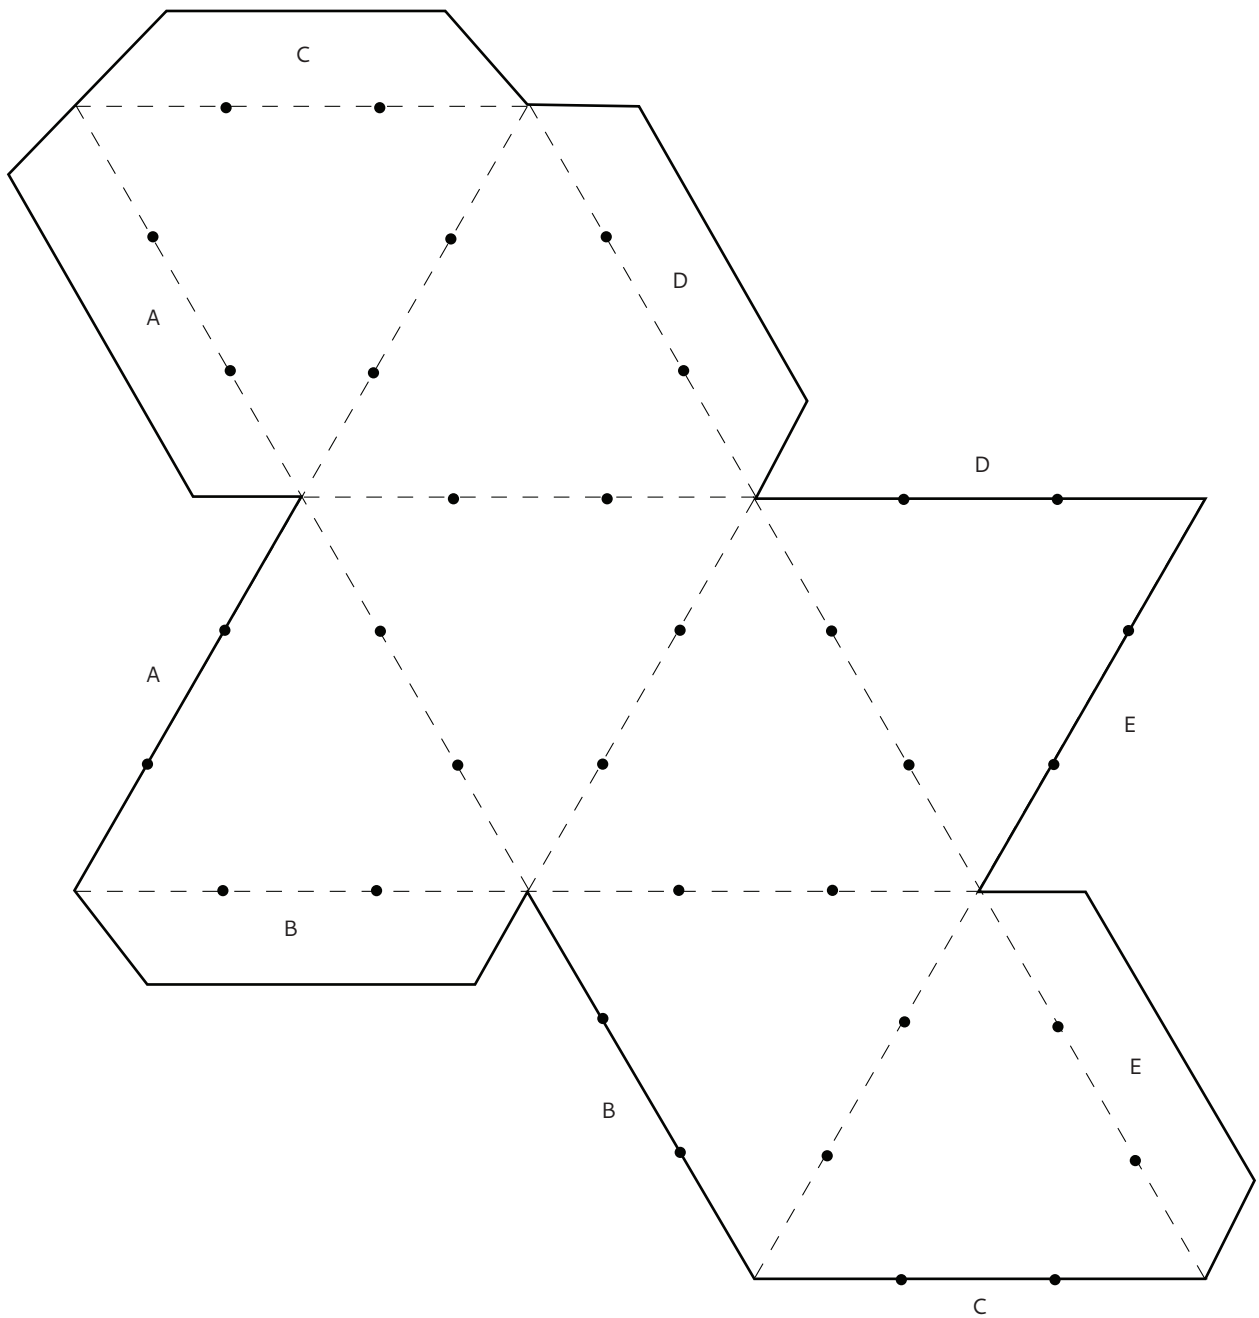

Instructions:

Step 1 Add designs to the template. Use the dots to create connecting patterns. Use the letters to match connecting edges/faces.

Step 2 Cut along thick black outer line.

Step 3 Fold along dashed lines.

Step 4 Glue or tape shape together using tabs.

3D Geometric Shapes

Dodecahedron

Platonic Solid - 12 Faces

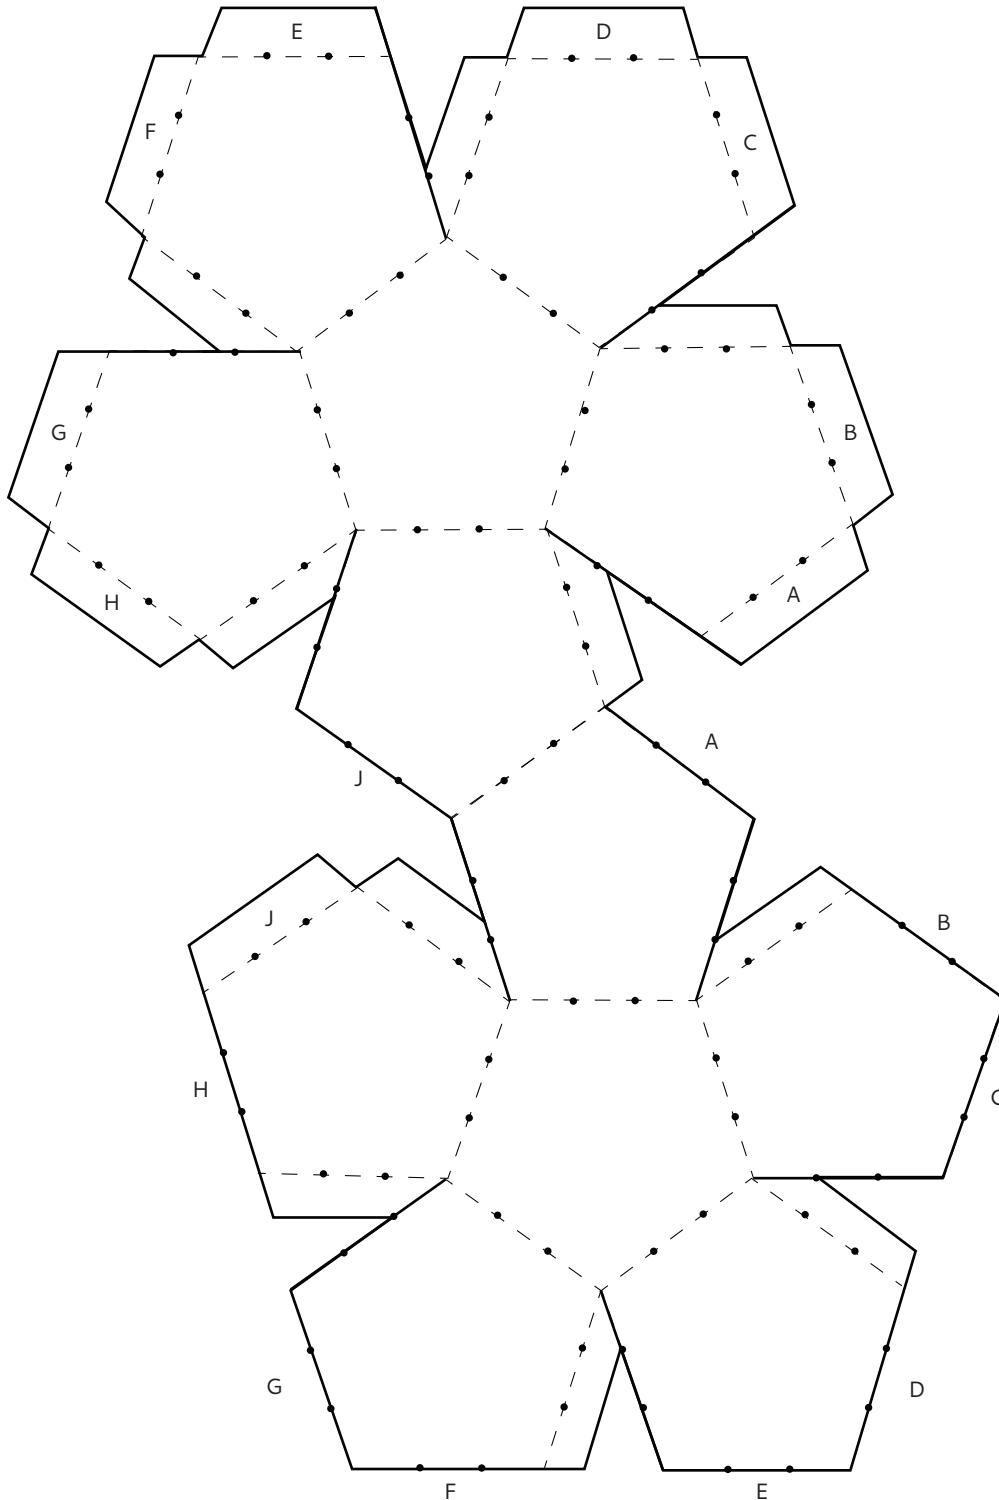

Instructions:

Step 1 Add designs to the template. Use the dots to create connecting patterns. Use the letters to match connecting edges/faces.

Step 2 Cut along thick black outer line.

Step 3 Fold along dashed lines.

Step 4 Glue or tape shape together using tabs.

3D Geometric Shapes

Icosahedron

Platonic Solid - 20 Faces

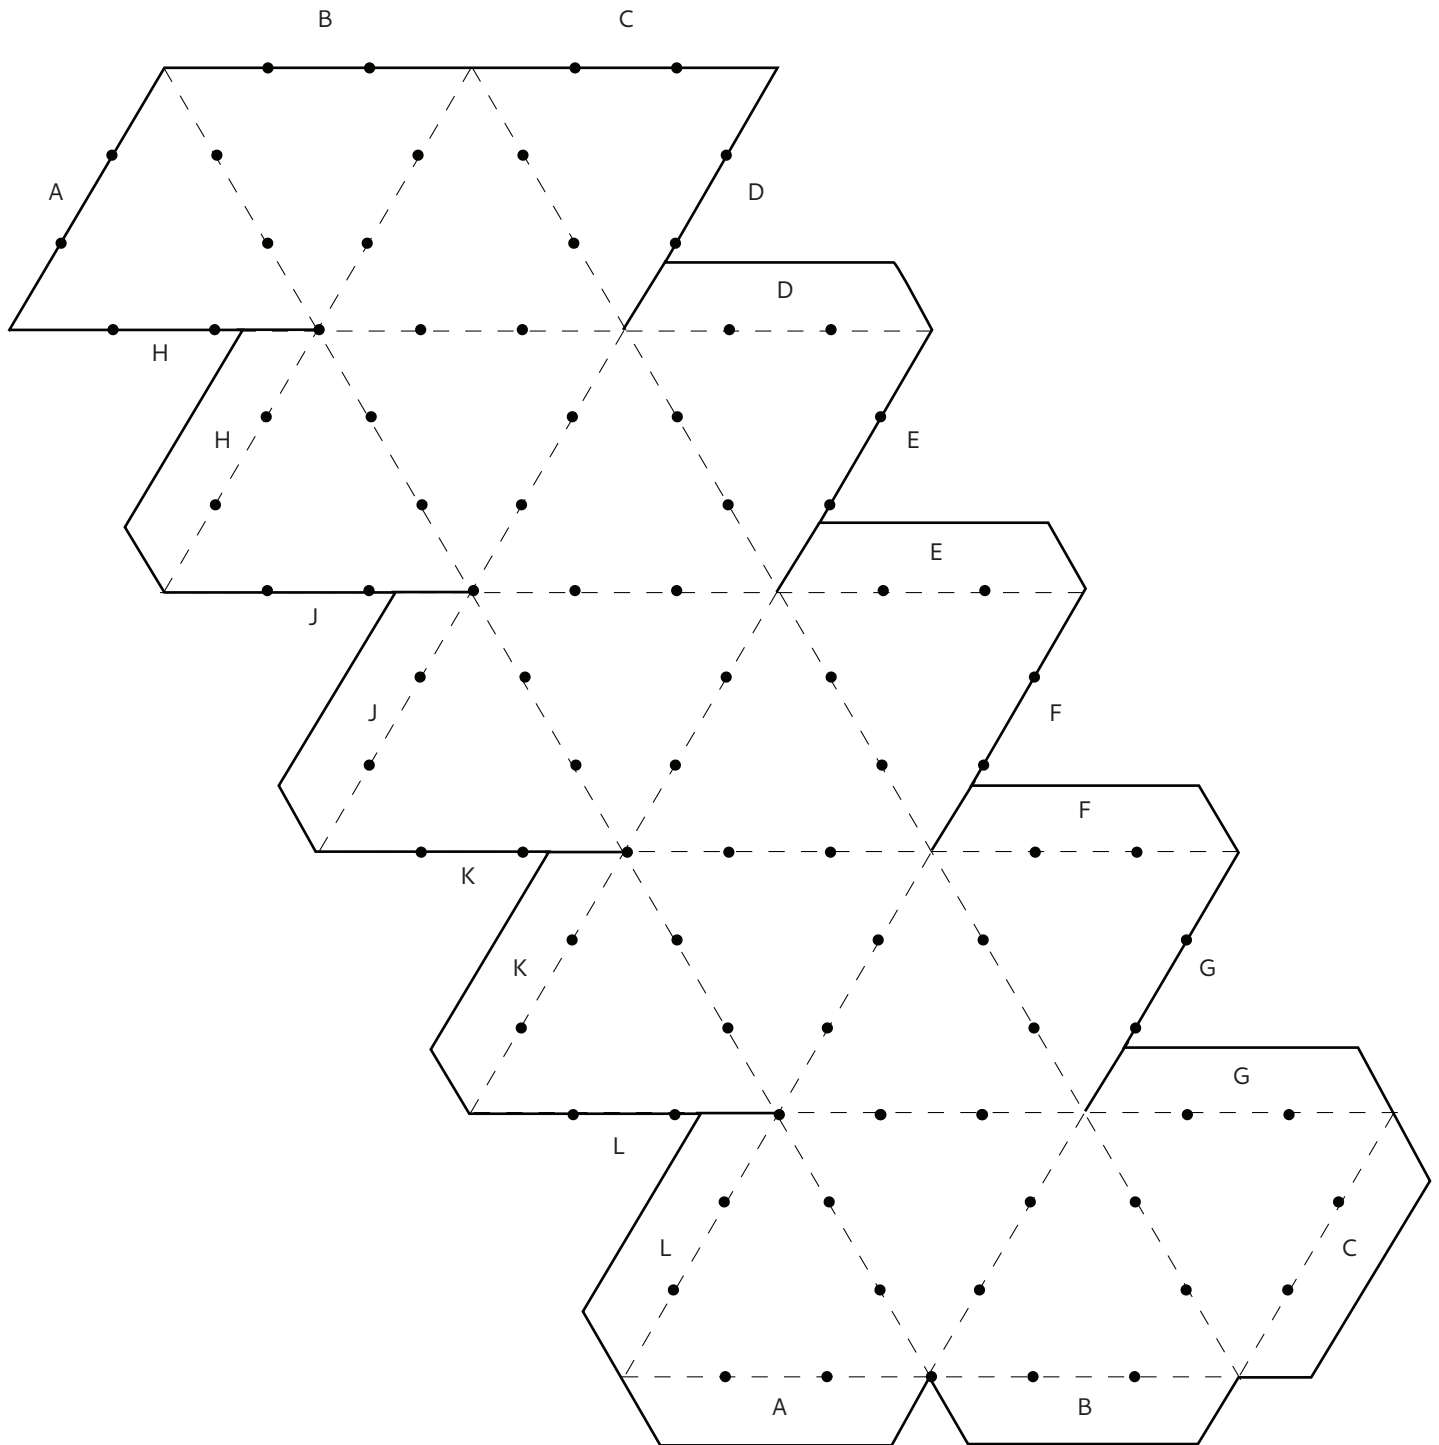

Instructions:

Step 1 Add designs to the template. Use the dots to create connecting patterns. Use the letters to match connecting edges/faces.

Step 2 Cut along thick black outer line.

Step 3 Fold along dashed lines.

Step 4 Glue or tape shape together using tabs.

3D Geometric Shapes

Cone

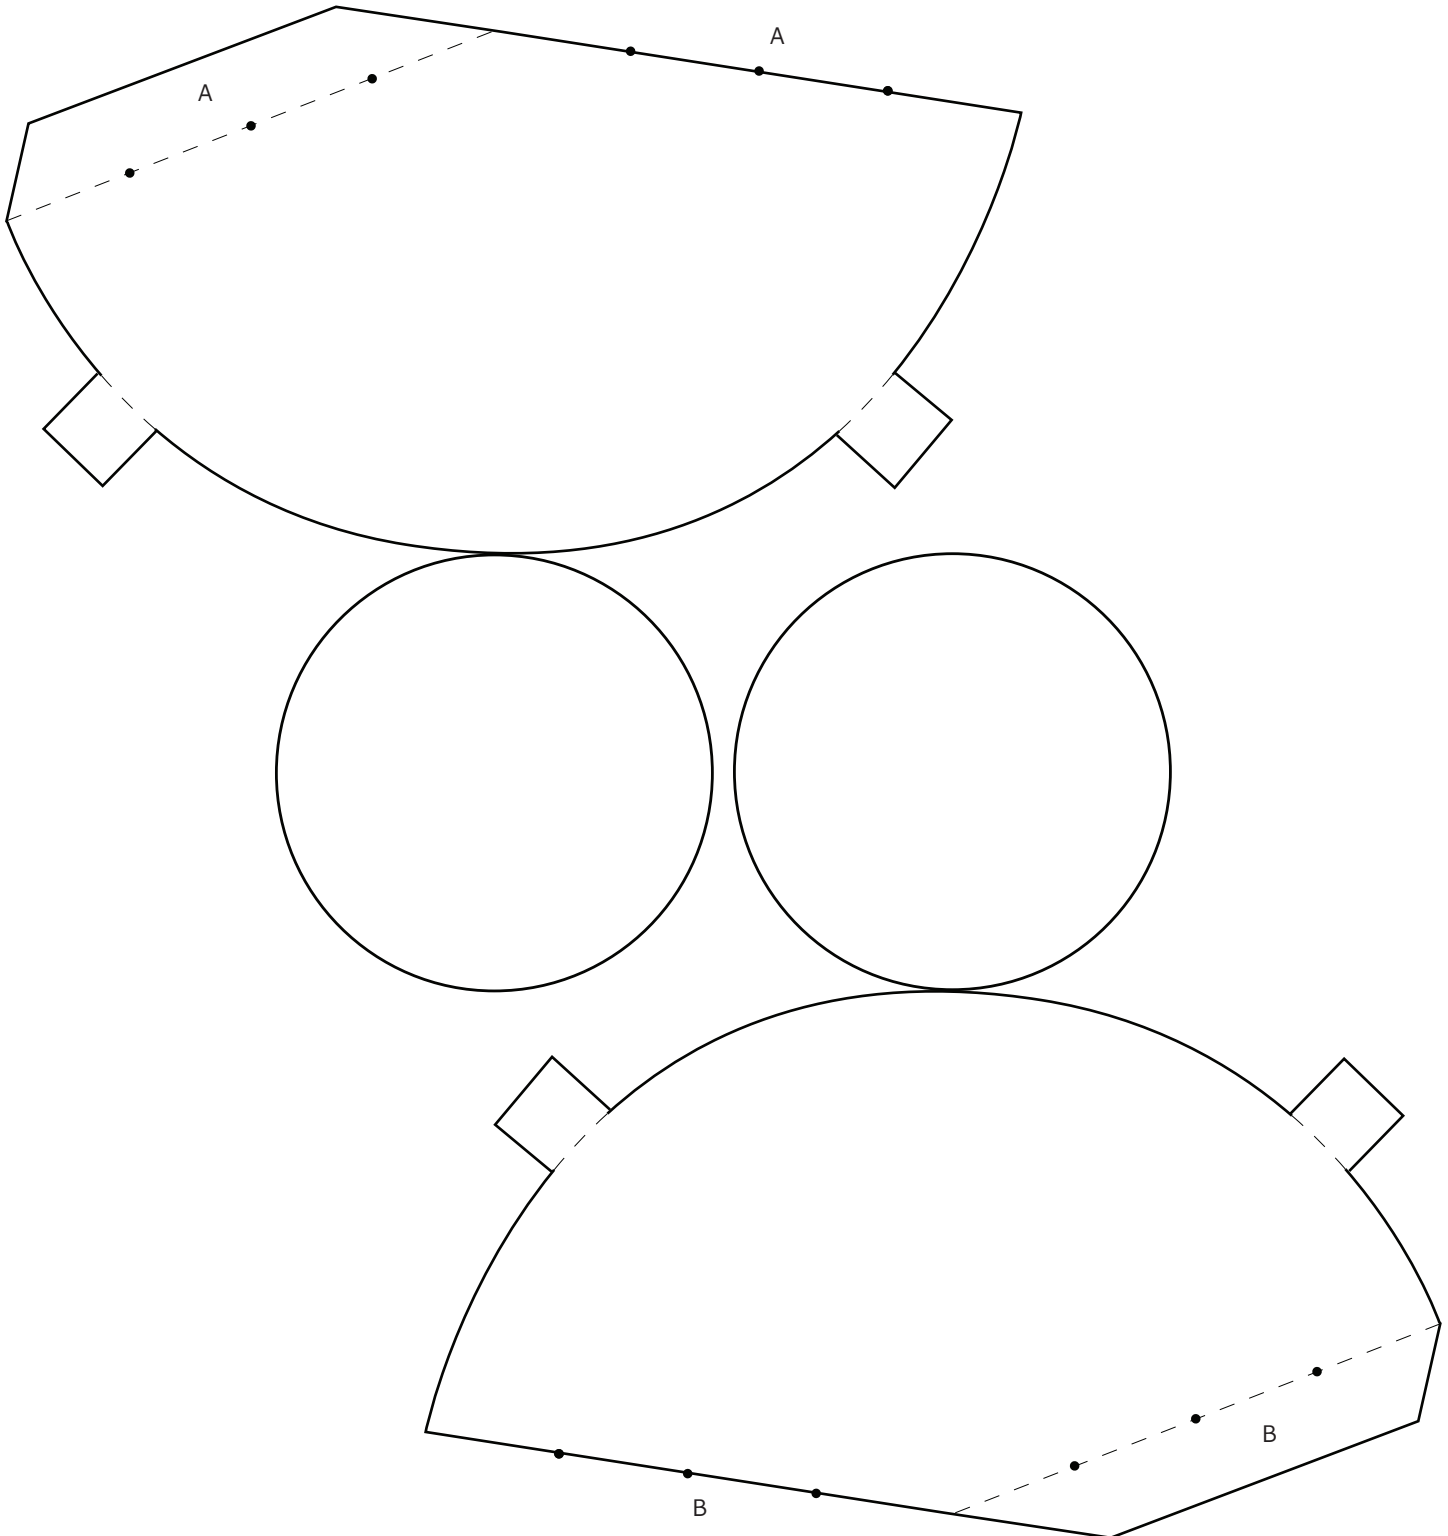

Instructions:

Step 1 Add designs to the template. Use the dots to create connecting patterns. Use the letters to match connecting edges/faces.

Step 2 Cut along thick black outer line.

Step 3 Fold along dashed lines.

Step 4 Glue or tape shape together using tabs.

3D Geometric Shapes

Double Cone

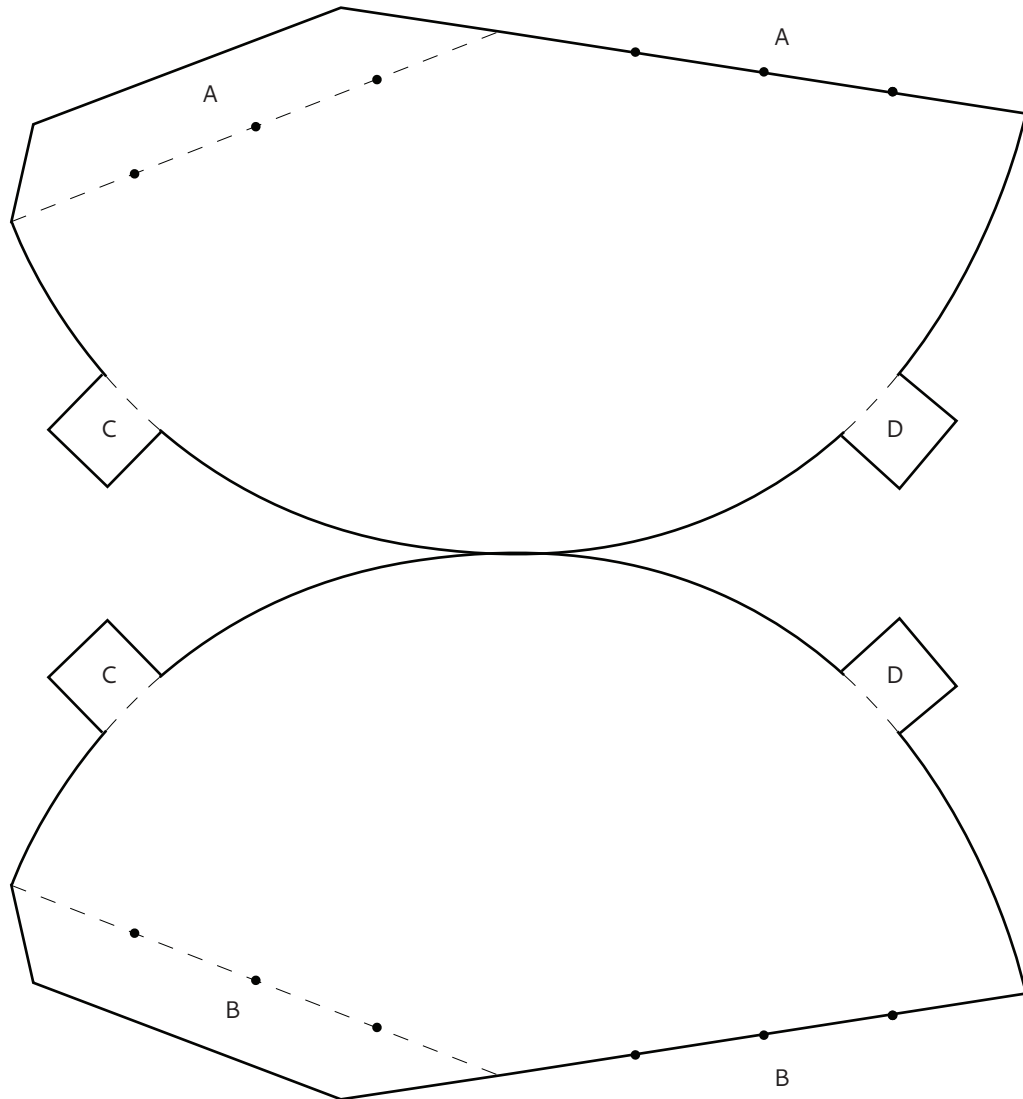

Instructions:

Step 1 Add designs to the template. Use the dots to create connecting patterns. Use the letters to match connecting edges/faces.

Step 2 Cut along thick black outer line.

Step 3 Fold along dashed lines.

Step 4 Glue or tape shape together using tabs.

3D Geometric Shapes

Square Pyramid

Instructions:

Step 1 Add designs to the template. Use the dots to create connecting patterns. Use the letters to match connecting edges/faces.

Step 2 Cut along thick black outer line.

Step 3 Fold along dashed lines.

Step 4 Glue or tape shape together using tabs.
