

Earth Balancers Template

Instructions:

Step 1 Color template as desired.

Step 2 Cut out earth, rocket, and satellites.

Step 3 Glue earth to a piece of cardboard using a glue stick.

Step 4 Cut out cardboard earth.

Step 5 Adults only Using an Xacto, cut a 1/2" long slot in the top layer of the cardboard earth in the location indicated on the template. Carefully feed one of the skewers through the slot and out the edge of the cardboard.

Step 6 Adults only Repeat step 5 with a second skewer on the opposite side of the earth. If the skewer pokes through the back, tape it to the cardboard to secure in place. Clip off sharp ends of skewers.

Step 7 Add glue to rocket, fold in half, and sandwich the top end of one skewer between it. Press to secure in place.

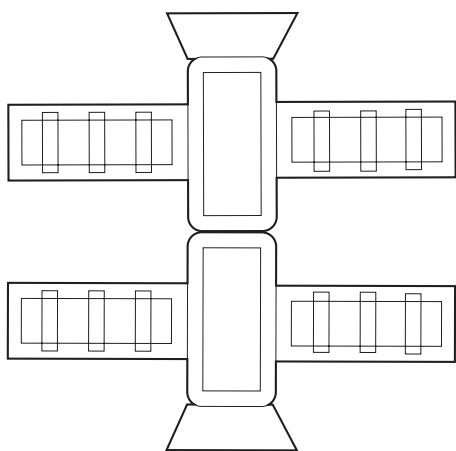

Step 8 Repeat with satellite on the end of the second skewer.

Step 9 Add a ball of clay to lower end of each skewer.

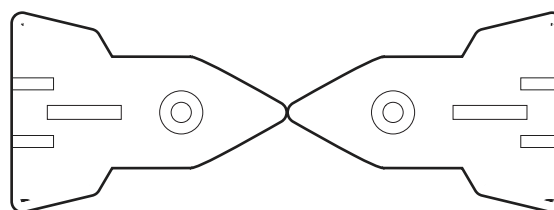

Step 10 Balance the earth on your fingertip!
